

We Are Looking for Employees
Who Actively Contribute.

Career Opportunities with FICO TONBELLER

As global Competence Center Compliance of Fair Isaac Corporation (NYSE: FICO) our main objective is the sustainable fight against financial and white-collar crime. We help banks, insurance companies, and industrial corporations fulfill their compliance obligations, avoid reputational damages, and live up to their own ethical standards. More than 1,200 customers in over 90 countries rely on our IT solutions.

FICO is world-market leader for Predictive Analytics and Decision Management Software. The company has subsidiaries in 25 countries and employs more than 3,000 employees, thereof about 150 in Germany.

To reinforce our Professional Services team in Bensheim (Germany), we are looking for a

Data Scientist (f/m/d) Compliance Solutions

Tasks

- Creation of analytical data models and/or of optimization models to support our international customers in the anti-financial crime area
- Support and coordination of international projects with the field of Advanced Analytics
- Performing internal and external training in the area of analysis and optimization
- Interface between business and IT departments in questions of procurement, preparation, validation, analysis and visualization of data as efficient decision support

Profile / Personality

- Degree in economics, statistics, mathematics or another technical course of studies
- At least 5 years of experience as Data Analyst or Data Scientist preferably in a consulting, financial services or insurance environment
- Knowledge of Perl/Python, Java, R or similar
- Fluency in English and intercultural competence with a travel-readiness of up to 50%
- Analytical talent, creativity, research drive, and typically first experience in compliance
- All competent candidates (male or female) will be considered for this position

Our German Benefits

- An exciting work environment that combines the strengths of a medium-sized company with the innovation power of the Silicon-Valley-based FICO group
- Diversified and challenging projects in an international environment
- An open work culture that values and encourages ideas and contributions
- Continual occupational training options, e.g. FICO University, specialized literature, participation in trainings and conferences, individual support of trainings
- Flexible work-time models, free beverages and snacks and much more
