

As global Competence Center Compliance of Fair Isaac Corporation (NYSE: FICO) our main objective in Germany is the sustainable fight against financial and white-collar crime. We help banks, insurance companies, and industrial corporations fulfill their compliance obligations, avoid reputational damages, and live up to their own ethical standards. More than 1,200 customers in over 90 countries rely on our IT solutions.

FICO is world-market leader for Predictive Analytics and Decision Management Software. The company has subsidiaries in 25 countries and employs more than 3,000 employees, thereof about 150 in Germany.

To support our **R&D team** in Bensheim (Germany), we are seeking an experienced

DevOps Engineer (f/m/d) AWS Cloud

for the development of our anti money laundering (AML) Cloud services. This is a unique opportunity to participate as a key member of a skilled and creative product development team designing, developing and delivering the Cloud services of FICO TONBELLER compliance solutions, which will be integrated into the FICO DMP platform.

Tasks

- Development of automation processes and integrated modules for the provision and operation of our cloud platform
- Development of Cloud Services & APIs
- Responsibility for refining, designing and implementing functional requirements
- Scoping, doing detailed design, effort estimation, coding
- Testing, debugging, maintenance and support
- Participation in all aspects of an iterative software development process including design, coding and reviews

Profile / Personality

- Bachelor or Master's degree in Computer Science or Computer Engineering
- 4+ years of software development experience
- Proficiency in Java, Gradle, Jenkins, Nexus and Git
- Knowledge of Python, Powershell, Docker und AWS (Amazon Web Services) would be an advantage
- Experience in working on software projects
- Knowledge of software and application design and architecture
- Familiar with agile techniques like code reviews, pair programming, collective code ownership, clean code, TDD and refactorings
- Knowledge of web application development and open source technologies
- Quick learner with a hands-on mentality, who is open to learn new technologies in related areas
- Excellent English language skills are required (B2+)
- Good German language skills (B1+) would be an advantage

Our German Benefits

- An exciting work environment that combines the strengths of a medium-sized company with the innovation power of the Silicon-Valley-based FICO group
- Diversified and challenging projects in an international environment
- An open work culture that values and encourages ideas and contributions
- Continual individual professional and personal development
- Flexible work-time models, free beverages and snacks and much more
